INVIGORATING CORDIAL—PROPESSOR MORRES.

INVIGORATING CORDIAL—PROPESSOR MORSE'S
Invigorating Elixir or Cordial—The Eighth Wonder of
the Botanio World.—The invigorating clixir and cordial introduced into medical practice by the great chemies, physician and traveller, Dr. M. Morse, has for its basis an oriental herb, first brought from the stony describe of that retime by that eminent philosopher. The natives of that region are remarkable for their longwity, examption from
sickness, and power of sustaining fatigme, all of which they
attribute, in a great degree, to the use of the herb or plant
referred to, which they universally chow, and semotimes
smoke. On his return to Europe, after a long residence in
the East, Professor Morse commenced experimenting with
this wonderful natural production, and the results of his
labors is the invigorating clixir, which has been endersed by
the medical colleges of all the grout cities of Europe as the
best preparation extant for life.

The mental and physical symptoms of nervous disease vanish togother under fee influence. The stooping, trembling victim of depression and debility, becomes a new man.
